Jean's Extrusions Inc. REACH Statement

12/17/2018

Under the definition of the REACH regulations EC1907/2006, Jeans Extrusions Inc is a producer of "articles". Article 57 of the REACH regulations requires article suppliers to inform recipients, if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight. The EU announced on 1/12/2017 an updated list of the candidate 173 SVHC chemicals. The list can be found at:

<https://echa.europa.eu/web/guest/candidate-list-table>

Based on material content certifications provided by Jeans Extrusions Inc suppliers, none of these substances are present in the materials we use to produce our products. Therefore Jeans Extrusions products do not contain any of the listed SVHC in excess of 0.1% by weight.

We will continue to promptly comply with REACH requirements and notify our customers of any change in product content.
